BOOK ANALYSIS AND APPLICATION

Name: UY, MIGUEL WALTER P.

Year/Section: 2nd year 6302

Program: BSIT-GD

Student No: 110-0140

Course/Subject: Art Appreciation GEC 3000

1.What new insights or perspectives on art did you gain after reading this book?

I learned that art is more than just pretty pictures. It shows emotions, ideas, and the culture of the people who made it. Even small details like colors or lines can have meaning.

2. How did the book change your approach to looking at art? Do you think you'll appreciate art differently going forward?

Now, I look at art more carefully. I notice the details, the story, and the feelings behind it, not just how it looks. I think I'll enjoy and understand art better from now on.

3. After reading this book, how do you think the definition of art has evolved? How does this shift affect its appreciation in contemporary society?

Art isn't just paintings or sculptures anymore. It can be digital art, performances, or even installations. This makes art more open to everyone and easier to appreciate in different ways today.
